AmeriSciences® MD

OMEGA MAX

Medical and scientific authorities such as the American Heart Association recognize the benefits associated with Omega-3 fatty acids from fish, and recommend daily consumption of both EPA and DHA, the active ingredients found in AmeriSciencesMD® Omega Max.*

The Only Omega-3 Developed For US Astronauts

Benefits

- Helps maintain triglyceride levels within the normal range*
- Promotes healthy eyesight and tear lubrication*
- Helps fetal brain and nervous system development during pregnancy*
- Supports the immune system and promotes a healthy anti-inflammatory response*

Product Features

- Omega Max was researched and co-developed with flight surgeons at NASA's Johnson Space Center under a Space Act Agreement for use by US Astronauts aboard the International Space Station
- Omega Max is a molecularly-distilled, purified oil derived only from the bodies of small fish, eliminating the risk of contaminants and pollutants found in the sea, such as dioxin and mercury.
- Omega Max is fully compliant with US Pharmacopeia standards, making it a pharmaceutical-quality product.
- Features a protective enteric-coating technology that helps minimize the occurrence of oil reflux typically associated with fish oils.

Contraindications & Precautions

Keep out of the reach of children. Consult your physician before taking this product if you take blood thinning medications, or if you anticipate surgery.

Key Ingredients

- Eicosapentaenoic Acid (EPA) supports the immune system and is a natural precursor to several beneficial anti-inflammatory signals in the body known as eicosanoids. It also plays a role in eye and joint lubrication.*
- Docosahexaenoic Acid (DHA) is a vital component of cell membranes in the brain, eye and heart. It is also necessary for optimal fetal development and is the most abundant form of omega-3 found in breast milk.*

Directions For Use

Take at least two (2) softgels daily, preferably at bedtime, or as recommended by a physician. If stomach upset occurs, take before a meal.
